

Waterbird Citizen Science Project

**Birding is better
when we work
together!**

Join our flock as
a waterbird
citizen scientist

Visit wetlands across the
Goulburn Broken Catchment
and use the Birdata app
to count birds. You'll be
contributing to valuable
scientific research.

Download Birdata & help us find out how birds respond to watering of wetlands

The Wetland Monitoring Assessment Program (WetMAP) is tracking the health of our wetlands to better understand how plants and animals respond to the delivery of water for the environment.
